

Pylon Pro and Pylon Conduit For Lotus Notes®

- Improve productivity with remote access to Lotus Notes applications, custom databases and PIM data
- Greater return on Lotus Notes investment
- Simple to deploy desktop solution for individuals and workgroups

Experience the power of Lotus Notes on a mobile device, including remote access to corporate email, calendar(s), contacts, task lists, memos, expenses and custom Lotus Notes applications. Corporate directories, sales force automation, inventory and field service applications can be quickly deployed on mobile devices—with no programming. Pylon Pro/Conduit enables you sync your handheld device to your desktop to improve effectiveness and individual productivity without requiring the involvement of corporate IT departments or development resources.

THE POWER OF LOTUS NOTES ON YOUR MOBILE DEVICE

With Pylon Pro/Conduit mobile users can improve their productivity with access to Lotus Notes email, PIM information, and custom Notes applications with easy desktop synchronization. PIM information is accessible through native applications on Palm® or Pocket PC devices. Pylon Pro/Conduit also provides access to email attachments and multiple address books and calendars.

A SEAMLESS EXTENSION OF LOTUS NOTES

Pylon Pro/Conduit extends your existing Lotus Notes infrastructure. Leveraging Lotus Notes security, individuals are automatically authenticated against the Lotus Domino® directory for simple set-up and administration with no demand on IT resources or special access to Domino servers necessary—it simply uses existing Access Control Lists (ACLs). A simple Notes database is provided, enabling users to configure, filter and control access to data sources. Existing Notes applications can be deployed quickly, saving time and money, and providing a greater return on your existing Lotus Notes investment.

ROBUST SECURITY

- Full support for Lotus Notes security models using existing ACLs
- Support for encrypted email
- Support for Notes “More secure Internet password”

SIMPLE OPERATION AND END-USER CONFIGURATION

- Users can use standard filters or create custom filters using Notes formulas
- Re-sorts and re-sizes data in custom databases to display the most relevant data

EASY ADMINISTRATION AND MANAGEMENT

- Pylon Pro/Conduit set-up requires no IT resources
- All configuration is completed in Lotus Notes

USES STANDARD PALM OS OR POCKET PC PIM APPLICATIONS

- Supports document and spreadsheet email attachments on Palm and Pocket PC
